

# Daily Connect

Your online daily sheet

We use the application **Daily Connect** to communicate daily information regarding your child's eating, sleeping, diapering and/or play habits during the day.

You can create an account with Daily Connect to access the events as soon as they are logged during the day.

## How Daily Connect helps during the day:

- Daily Connect improves communication between you and the teachers.
- Connect anytime, and know immediately what your child is doing during the day.
- Get peace of mind and a sense of connection to your baby throughout the day.
- Receive pictures of your child in action. You can also download and share these photos.
- Use graphs to better understand your child's schedule, and identify patterns.
- Receive customized alerts and notifications for message and entries saved by the teachers
- Even if you're not using the application, an email is automatically sent to you at the end of the day with a summary.

The information is **protected and secured** and only accessible and shared with authorized family members and caregivers

Mobile application: **\$4.99** (one-time fee, optional) (iOS 6+, Android 2.3+, Apple Watch)

Web application: **free** ([www.dailyconnect.com](http://www.dailyconnect.com))
